(ii) CUSTOMER INFORMATION:

- 1a. **Special Item No 54151S Information Technology Professional Services** – see price list.

Special Item No 511210 - Software Licenses – see price list.

Special Item No 518210C - Cloud and Cloud-Related IT Professional Services – See price list.

Special Item No OLM - Order-Level Materials – Pricing is established at the Order Level.

- 1b. **Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract.**

SIN 54151S - Sr. Analyst - \$87.26

SIN 511210 – EvolveCLBase-US011 for \$2.15

SIN 518210C – Cloud Application Developer II - \$143.92 per hour.

OLM - OLMs are not defined, priced, or awarded at the FSS contract level. They are unknown before a task or delivery order is placed against the FSS contract or FSS BPA. OLMs are only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN).

- 1c. **A description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided** – See price list.

Maximum order: \$500,000 for 54151S, 511210 and 518210. The cumulative value of OLMs in an individual task or delivery order cannot exceed 33.33% of the total value of the order.

2. **Minimum order:** \$100.00.

3. **Geographic coverage** (delivery area): *Domestic delivery* is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

The Geographic Scope of Contract will be domestic and overseas delivery.

4. **Point of production:** Germantown, Montgomery County, Maryland.
6. **Discount from list prices or statement of net price.** Prices are net prices.
7. **Quantity discounts** – 1% for orders exceeding \$150,000.
8. **Prompt payment terms** - 1% - 20 days, Net 30 days from receipt of invoice or date of acceptance.
9. **Foreign items** – Not applicable.
- 10a. **Time of delivery** - To be negotiated with each authorized ordering activity.
- 10b. **Expedited Delivery** – To be negotiated with each authorized ordering activity.
- 10c. **Overnight and 2-day delivery** – To be negotiated with each authorized ordering activity.
- 10d. **Urgent Requirements** – To be negotiated with each authorized ordering activity.
11. **F.O.B. point:** Destination.
- 12a. **Ordering address:**

Planet Technologies, Inc
20400 Observation Drive
Suite 204
Germantown, MD 20876

12b. **Ordering procedures:** For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. **Payment address:**

Planet Technologies, Inc
20400 Observation Drive
Suite 204
Germantown, MD 20876

14. **Warranty provision** – Workmanlike manner for 54151S and 541518C and 60 Days or 1 Year for 511210.

15. **Export packing charges** – Not Applicable.

16. **Terms and conditions of rental, maintenance, and repair** – Not Applicable.

17. **Terms and conditions of installation** – Not Applicable.

18a. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices** – Not Applicable.

18b. **Terms and conditions for any other services** – Not Applicable.

19. **List of service and distribution points** - – Not Applicable.

20. **List of participating dealers** – Not Applicable.

21. **Preventive maintenance** – Not Applicable.

22a. **Special attributes such as environmental attributes** (e.g., recycled content, energy efficiency, and/or reduced pollutants) - – Not Applicable.

22b. **If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found** (e.g. contractor's website or other location.) The EIT standards can be found at: www.Section508.gov/ - – Not Applicable.

Evolve 365 – See price list.

23. **Data Universal Number System (DUNS) number** – 013020685.

24. **Notification regarding registration in System for Award Management (SAM) database** – Yes.

DESCRIPTION OF IT SERVICES AND PRICING for 54151S

SR. ANALYST

GENERAL EXPERIENCE: Three years of experience in ADP system analysis and programming and utilizing major concepts of application programming on large-scale database management systems. Experience with the development of block diagrams and logic flow charts.

FUNCTIONAL RESPONSIBILITIES: Under general supervision of the Senior Software Engineer, develops and/or maintains operating systems communications software, database packages, compilers, assemblers, and utility programs. Modifies existing and creates special purpose software and ensure systems efficiency and integrity. Analyzes systems requirements and design specifications. Develops block diagrams and logic flow charts. Translates detailed design into computer software. Tests, debugs, and refines the computer software to produce the required product. Prepares required documentation, including project plans, software program and user documentation. Enhances software to reduce operating time or improve efficiency. Provides technical direction to less experienced programmers.

MINIMUM EDUCATION: Bachelor's degree.

PROJECT DIRECTOR

GENERAL EXPERIENCE: Ten years of experience in complete IT engineering project development from inception to deployment, with a demonstrated ability to provide guidance and direction in IT engineering tasks of a technical nature. The Program Director shall also have demonstrated capability in the overall management of multi-task contracts of this type and/or Complexity, including but not limited to Sharepoint, CRM, IA.

FUNCTIONAL RESPONSIBILITIES: Interfaces with government management personnel, contract managers, and customer agency representatives. Responsible for formulating and enforcing work standards, assigning contractor schedules, reviewing work quality, communicating policies, purposes, and goals of the organization to subordinates.

MINIMUM EDUCATION: Bachelor's degree.

TECHNICIAN

GENERAL EXPERIENCE: One to three years demonstrated performance or internship in related technology. Experienced in topic such networks, integration and systems design and implementation.

FUNCTIONAL RESPONSIBILITIES: Works to support the Microsoft Project manager to ensure development, analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products. Technician (Project Support). Designs and writes code as required for selected customer systems; Directly involved in the hands-on implementation of customer systems. Provide Technical Writing and Documentation support.

MINIMUM EDUCATION: Bachelor's degree.

SUBJECT MATTER EXPERT-INTERMEDIATE

GENERAL EXPERIENCE: (3) Three years related experience in technical and specialization applications and skilled in engineering large, complex projects.

FUNCTIONAL RESPONSIBILITIES: Provides technical knowledge and skill in using specialized computer applications. Experienced in the computer operational environment and using high-level functional systems analysis, design, integration, documentation, and implementation on complex problems which require in-depth knowledge of the subject matter. Applies principles, methods and knowledge of the functional area and in the process uses advanced mathematical principles and methods to arrive at practical, innovative solutions.

MINIMUM EDUCATION: Bachelor's Degree.

TECHNICIAN III

GENERAL EXPERIENCE: (5) Five plus years demonstrated performance in related technology. Experienced in topic such complex networks, cross- platform integration and large-scale, complex systems design and implementation. This individual will have been trained in product futures, and relevant Certified Training associated with Microsoft's products.

FUNCTIONAL RESPONSIBILITIES: Works to support the Microsoft Project manager to ensure development, analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products.

MINIMUM EDUCATION: Bachelor's Degree.

TECHNICIAN II

GENERAL EXPERIENCE: (3) Three years demonstrated performance in related technology. Experienced in topic such complex networks, cross- platform integration and large-scale, complex systems design and implementation. This individual will have been trained in product futures, and relevant Certified Training associated with Microsoft's products.

FUNCTIONAL RESPONSIBILITIES: Works to support the Microsoft Project manager to ensure development, analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products. Technician II (Project Support). Assists in delivering technical presentations to customer staff. Designs and write code as required for selected customer systems. Develops documentation on selected customer systems and objectives. Directly involved in the hands- on implementation of customer systems. Works with MCS & customer staff personnel to support technical strategy and control objectives.

MINIMUM EDUCATION: Bachelor's Degree.

TECHNICIAN I

GENERAL EXPERIENCE: (1) One years demonstrated performance or internship in related technology. Experienced in topic such complex networks, cross- platform integration and large-scale, complex systems design and implementation. This individual will have been trained in product futures, and relevant Certified Training associated with Microsoft's products.

FUNCTIONAL RESPONSIBILITIES: Works to support the Microsoft Project manager to ensure development, analysis or deployment remains on schedule and in line with the current capabilities and future directions of Microsoft products.

MINIMUM EDUCATION:

Bachelor's Degree.

IT PROCESS SPECIALIST

GENERAL EXPERIENCE: 3 years.

FUNCTIONAL RESPONSIBILITIES: Analyzes applicable information technology requirements. Evaluates analytically and systematically IT problems or IT workflow within the organization and plans and/or develops appropriate corrective action(s). Makes recommendations, if needed and ensures the steps are followed to remedy and streamline the agencies IT mission or mission critical IT performance and/or service deliverables. Appropriately applies activity and IT data-modeling, transaction flow analysis, internal control and IT risk-analysis and current best practices/methods and/or techniques.

MINIMUM EDUCATION: Bachelor's Degree.

IT PROCESS SPECIALIST I

GENERAL EXPERIENCE: 8 years.

FUNCTIONAL RESPONSIBILITIES: Responsible for analyzing IT needs, identifying agency IT challenges, and proposing solutions and/or recommends IT risk mitigation strategies. Elicits, analyzes, communicates, and validates best practices and requirements for changes to IT rules, IT regulations and/or IT policies. Understands IT problems and opportunities in the context of the requirements and recommends solutions that enable the organization to achieve its IT mission. Experienced in identifying and resolving IT issues in advance, managing IT risks, coordinating IT interdependencies, and gathering IT requirements to improve IT operations, map IT processes (current state/future state) analyzing IT data, and producing high quality IT documentation.

MINIMUM EDUCATION: Bachelor's Degree.

IT PROJECT LEAD

GENERAL EXPERIENCE: 3 years.

FUNCTIONAL RESPONSIBILITIES: Provides IT management level services in a direct or consulting role. Plans IT project strategies and IT organizes resources to achieve project objectives. Oversees the timely execution of an IT project activities through all phases and ultimate completion of the IT project.

MINIMUM EDUCATION: Bachelor's Degree.

SENIOR IT PROJECT LEAD

GENERAL EXPERIENCE: 12 years.

FUNCTIONAL RESPONSIBILITIES: Provides IT management level services in a direct or consulting role. Plans IT program strategies and IT organizes resources to achieve program or IT portfolio objectives. Oversees the timely execution of an IT program activities through all phases and ultimate completion of the program. A Program Manager oversees the planning and execution of several IT projects that are within (or associated with) an program.

MINIMUM EDUCATION: Bachelor's

Degree. **IT DEVELOPMENT SPECIALIST**

GENERAL EXPERIENCE: 2 years.

FUNCTIONAL RESPONSIBILITIES: Writes and edits IT technical materials (e.g., user manuals, reports, documents, deliverables). Assist project teams in collecting and organizing IT information. Review work and resolve discrepancies according to strict standards and guidelines. Analyze and develop new IT requirements; prepare specifications for IT equipment acquisitions; and modify IT hardware as necessary to meet specialized user needs. Conduct IT site surveys to assess and document current site IT and network configuration and user requirements. Prepare IT implementation plans and site installation technical design packages. Prepare IT configuration change drawings and documentation at each site. Prepare IT site installation and test reports. Coordinate IT installation operations and IT maintenance support. Some or all work may be carried out independently. This may include the application of multiple IT engineering disciplines to IT modeling, analyses, specification development, hardware and software planning/implementation/modification/coding, scheduling, configuration changes, and test reports for computer systems, messaging and telecommunications systems.

MINIMUM EDUCATION: Bachelor's Degree.

IT DEVELOPMENT SPECIALIST I

GENERAL EXPERIENCE: 5 years.

FUNCTIONAL RESPONSIBILITIES: Analyzes and develops new IT requirements; review specifications for IT equipment acquisitions; and modify IT hardware as necessary to meet specialized user needs. Write and edit technical IT materials (e.g., user manuals, reports, documents, deliverables). Review IT work, resolve IT discrepancies, and communicate IT standards, policies, and goals to subordinates. Conduct IT site surveys to assess and document current site IT and network configurations and user requirements. Assist in preparation of IT engineering plans and site IT installation technical design packages. Perform IT network installation efforts. Review and evaluate IT site installation and test IT reports. Coordinates IT installation operations and IT maintenance support. May oversee efforts of more junior level staff. This may include the application of multiple IT engineering disciplines to modeling, analyses, specification development, hardware and software planning/implementation/modification / coding, scheduling, configuration changes and test reports for computer systems, messaging and telecommunications systems.

MINIMUM EDUCATION: Bachelor's Degree.

Special Item No 541518C - Cloud-Related IT Professional Services

Labor Category: **Cloud Application Developer II**

Minimum Experience: 4 years.

Functional Duties: Develops, analyzes, tests, and debugs software as well as low-code / no code cloud-based solutions based upon defined requirements. Provides development support around implementing and integrating cloud services. Collaborates with other technical resources to identify, troubleshoot, and remediate software or cloud service integration related issues. Provides support around general troubleshooting as well as performance related issues and provides technical recommendations or solutions. Works with Project Manager to coordinate software updates, patches, hot fixes, and major product releases. Provides support to lower-level developers related to software development and or low-code / no-code solutions. Documents code and is as well as helps develop User Manuals. Works with more senior Application Developers escalate issues accordingly.

Minimum Education: Bachelor's Degree.

Labor Category: **Cloud Application Architect I**

Minimum Experience: 2 years.

Functional Duties: Responsible for the developing solutions to new services or applications which may be hosted in either the cloud or on-premises. Provides recommendations and direction in support of architecting complex solutions as well as leadership to the development team with regards to documentation, deployment, testing, piloting, and other aspects in support of production rollouts. Responsible for coordinating and collaborating with Project Manager(s), development teams(s), and end users of the service to ensure service(s) and feature(s) meet the business and technical requirements. Responsible for overseeing work and tasks of others. Works with Engineering Team(s), Operations Team(s), Service Desk, and other product teams as necessary.

Minimum Education: Bachelor's Degree.

Labor Category: **Cloud Application Architect II**

Minimum Experience: 6 years.

Functional Duties: Responsible for the developing solutions to new services or applications which may be hosted in either the cloud, on-premises, or a hybrid of the two. Provides recommendations and direction in support of architecting complex solutions as well as leadership to the development team with regards to documentation, deployment, testing, piloting, and other aspects in support of production rollouts. Responsible for coordinating and collaborating with Project Manager(s), development teams(s), and end users of the service to ensure service(s) and feature(s) meet the business and technical requirements. Responsible for overseeing work and tasks of others. Works with Engineering Team(s), Operations Team(s), Service Desk, and other product teams as necessary.

Minimum Education: Bachelor's Degree.

Labor Category: **Cloud Application Architect III**

Minimum Experience: 6 years.

Functional Duties: Responsible for the developing solutions to new services or applications which may be hosted in either the cloud, on-premises, or a hybrid of the two, as well as across multiple cloud providers. By understanding and assessing customer business and technical requirements, the resource will provide consultative guidance, direction, and leadership to other team members on how to architect complex solutions that are optimized for the customer needs. Provides subject matter expertise around how complex, multifaceted solutions are architected, documented, deployed, tested, piloted, refined, and rolled out across a production environment. Coordinates and collaborates with Project Manager(s), development team(s), and end users of the service to ensure service(s) and feature(s) meet the business and technical requirements. Responsible for overseeing work and tasks of others. Works with Engineering Team(s), Operations Team(s), Service Desk, and other product teams to provide guidance on how to roll out and integrate the solution in a Production environment.

Minimum Education: Bachelor's Degree.

Labor Category: Cloud Application Architect IV

Minimum Experience: 10 years.

Functional Duties: Responsible for the developing solutions to new services or applications which may be hosted in either the cloud, on-premises, or a hybrid of the two, as well as across multiple cloud providers. By understanding and assessing customer business and technical requirements, the resource will provide consultative guidance, direction, and leadership to other team members on how to architect complex solutions that are optimized for the customer needs. Provides subject matter expertise around how complex, multifaceted solutions are architected, documented, deployed, tested, piloted, refined, and rolled out across a production environment. Coordinates and collaborates with Project Manager(s), development team(s), and end users of the service to ensure service(s) and feature(s) meet the business and technical requirements. Responsible for overseeing work and tasks of others. Works with Engineering Team(s), Operations Team(s), Service Desk, and other product teams to provide guidance on how to roll out and integrate the solution in a Production environment. Familiarity with cloud concepts related to security, networking, and architecture. Knowledge of SaaS, PaaS, and IaaS cloud delivery models. Strong skills in a broad set of infrastructure and operational technologies: virtualization, grid computing, clustering, (broadband networks and internet architecture), data centers, multitenant, service, and web technologies. Ability to develop architectural position, design, and specification papers.

Minimum Education: Bachelor's Degree.

Evolve 365

A Planet Technologies Service

Whether you are just getting started with Microsoft Office 365 or have already been using it, you will find that it is an extremely valuable solution that spans far beyond email, and can provide great value for your organization. Office 365 incorporates a number of products re-tooled (eg. SharePoint, Skype) and new valuable services being added all the time (Clutter, Delve, Sway and more). The question is, how do you effectively adopt these solutions while keeping up with the evolving nature of the Office 365 itself? **Evolve 365 is the answer.**
